

Greecian Planters

ped in the tradition of the old south with a flavor of old world
ty. Roma C. Designs' Greecian Planter is reminiscent of columned
ches and liveried porters. It brings to mind a time of elegance and
m that is long since past, but eloquently captured in the lines of
timeless piece.

efully reproduced from century old patterns by expert craftsmen.
uistically crafted in lightweight, rust resistant cast aluminum, this
cian Planter will give you a lifetime of enjoyment and service
doors or out.

Each design is first carved in hardwood. The
models are then used to form the sand molds
into which aluminum is cast. Sand casting
produces surfaces which have allot of texture
and character. These surfaces are not
intended to be perfect, but rather to reveal
the charming imperfections inherent in the
process.

The Greecian Planter comes completely
assembled, primed with a light grey metal primer leaving
a solid rust preventive
powder coated
Glass White
and beautiful

undercoat. It is then
with Satin Black or
for a tough, durable
finish.
